

# Nominate a building for a Coronet!

Do you know a building or property worthy of the award? Tell us about it!

Each year the **Fairfield County Heritage Association** honors successful renovation, restoration, preservation, beautification, landscaping and new building projects.

Honorees have included home owners, business owners, industry, schools, churches and public property.

An award-winning project may be large or small, but it must be visible to passers-by. It should be completed or near completion, and the work should have been done in the last three years.

Nominating a project is easy.
